📄 SUMMARY

MERN & Next.js Developer with hands-on experience building scalable full-stack web applications, including multi-vendor e-commerce and marketplace platforms. Strong expertise in React.js, Node.js, and PostgreSQL with practical experience in API development, authentication systems, and performance optimization. Seeking an opportunity to contribute to real-world, high-impact applications.

🧠 SKILLS

Frontend

- React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS

Database

- MongoDB, PostgreSQL

State/Data

- Redux Toolkit, Axios, TanStack Query

Backend

- Node.js, Express.js

ORM/Tools

- Prisma, Mongoose

Other

- TypeScript, Framer Motion, REST APIs

📁 EXPERIENCE

Web Designer (Freelance), *sk-corporation.in* 🌐

03/2026 – 04/2026

- Developed a responsive portfolio website using Next.js, improving UI/UX and accessibility.
- Implemented SEO-friendly structure and optimized performance (fast loading, image optimization)
- Integrated contact forms and deployed the application on Vercel

Next JS Intern, *Midnight Digital Pvt Ltd*

01/2026 – 02/2026

Bhavnagar

- Worked on building responsive web applications using Next.js
- Implemented server-side rendering (SSR) for improved performance
- Integrated REST APIs and handled frontend-backend communication .

📁 PROJECTS

Gstore 🌐 , – Multi-Vendor E-commerce Platform

01/2026

Tech Stack: **Next.js, PostgreSQL, Prisma, Stripe, Clerk**

- Developed a full-stack multi-vendor e-commerce platform
- Built vendor dashboards, admin panel, and secure payment integration using Stripe
- Implemented authentication using Clerk and database management with Prisma
- Improved UI performance using optimized image handling and animations
