SUMMARY

I am Goswami Gaurav Bharti, a motivated fresher with practical experience in MERN and PERN stacks, as well as Next.js. Seeking job and freelance opportunities to apply and grow skills. Skilled at creating user-friendly web applications with strong backend logic and modern UI design.

SKILLS

HTML, CSS, Java Script, Type Script, React.js, Next JS, Node.js, MongoDB, Express.js, PostgreSQL —
| **Tailwind CSS** | **Mongoose** | **Prisma** | **TanStack(React) Query**

EDUCATION

Bachelor of computer science (BCA) 2023 – Present | Bhavnagar
Shree Swaminarayan Gurukul collage of computer science
Bhavnagar

EXPERIENCE

Next JS Intern  , *Midnight* 01/2026 – 02/2026 | Bhavnagar
Next JS developer intern at Midnight Digital Pvt Ltd, working with Next.js to build responsive, performant web apps. Gained experience in server-side rendering, API integration, and collaborative development.

PROJECTS

Freshique Farm  , *Based on MERN* 10/2025

- Developed a comprehensive full-stack marketplace connecting consumers and farmers using React (frontend) and Node.js/Express + MongoDB (backend).
- Implemented farmer profiles, dynamic product listings with Cloudinary image uploads, cart and order management with per-farmer order separation, and admin dashboards. Utilized Tailwind CSS for responsive UI, Redux Toolkit for state management, React Query for data fetching, Mongoose for database operations, and Framer Motion for smooth animations. Integrated Recharts for analytics visualization and Axios for API communication.

Gstore - commerce  , *NEXT JS* 01/2026

- Full-stack e-commerce platform built with Next.js, Vercel, and PostgreSQL (Neon). Enabled multi-vendor selling with vendor dashboards, admin controls, and Stripe payments.
- Tech stack: Clerk, Prisma, Next Js, Framer Motion, ImageKit, OpenAI, Recharts, and React Hot Toast.

CERTIFICATES

CodeWave 1.0 Hackthon:  district-level CodeWave Hackathon 1.0 in Bhavnagar, showcasing full-stack development.
